OUR WHY

To create jobs in South Africa, so that, together, we can change the picture below

Funny Mats Single
(48cm X 33.5cm)

Funny mat is a tabletop and surface protection cover that can be used for many activities. Its main use is as a place mat that can be coloured in, but can be used for craft activities like painting, shaping clay or play dough.

The designs on the funny mat can be coloured with water-based felt tip koki pens. The colours will wash off when the mat is placed under running water so it can be used again and again!

Funny mat is produced from pp and is non-toxic.

A great way to keep your toddler at the dinner table so mom and dad can share a rare meal together!

Funny Mats Black
(40cm X 40cm)

Funny Mat Black is a table top and surface protection cover that can be used for many activities. It's main use is as a place mat that can be coloured in with chalk, but can be used for craft activities like painting, shaping clay or colour dough.

The designs on the Funny Mat can be coloured with chalk. The chalk will wash off when the mat is placed under running water so it can be used again and again!

Bath Sprudels®

Single Sprudels come in 6 different colours. Blue, turquoise, green, coral, orange and yellow. They make the bathroom smell beautiful as they fizz around. They change the colour of the bath water before revealing a hidden cute sponge toy. They come in a colourful CDU which contains 48 individually packed bath bombs. Don't worry mums! The bath bombs won't stain your bath! (or your children).

The triangular 6 pack box contains all 6 colours. Six colourful bath times with 6 sponge surprises all in one box!

Jumbo Bath Sprudels create a foamy bath that changes colour twice! The big surprise is a BIG funky chunky sponge toy. The perfect size for little hands to hold.

Egg Sprudels®

The Egg Bath Sprudel® range comes in three forms; blue egg with red dots, turquoise egg with yellow dots & orange egg with green dots. Egg Bath Sprudels® are carefully themed to release sponges with egg-laying animals only, which will encourage educational fun for all involved.

Rainbow Sprudels®

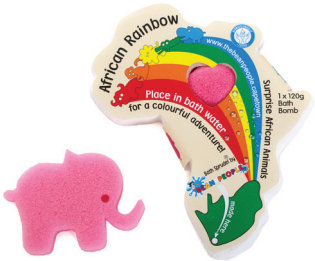

The Star and Rocket Bath Sprudel® each fizz for about 3 minutes, producing a white foamy layer on the surface of the bath water. Then 5 colour streaks of the rainbow (Red, Orange, Yellow, Turquoise and Blue) blast out of the rocket and from the star points creating a colourful, foamy rainbow on top of the white foamy bath water. And there's more! Acute space-themed sponge character emerges. The Rainbow Africa does all of the above but reveals a wild animal sponge toy.

Bath Sprinkles

Bath Sprinkles consist of different coloured Sprudel dust and are sprinkled over the bath water changing its colour. They come in three colour combinations. Would you like a green, orange or purple bath?
